

# Achieve Better Outcomes more Efficiently

WoundReference is a one-stop shop decision support platform for experienced and new hyperbaric and wound care clinicians.

## WoundReference empowers you to:

### Be on top of latest evidence and reimbursement data anytime

**Hyperbaric Oxygen Therapy (HBO Indications, Operations and Safety) and Wound Care Knowledge Base** - Always up-to-date, actionable topics, protocols and checklists to identify and justify the appropriate indication for your patient at the point of care

### Expedite patient care and elevate patient confidence in clinical decisions

**Curbside Consult** - From simple to complex questions, get individualized, timely feedback from experienced hyperbaric and wound care experts

**Telehealth** - Share your private virtual room webpage address to instantly connect with colleagues and patients from your desktop or mobile - no download needed.

### Save time and money - streamline workflow

**Product Navigator with Patient Handouts** - Explore HBO and wound care products, create favorites list and increase patient adherence with customized handouts. Choose the right products for your patients through interactive product choice matrices, peer ratings, editors' recommendations, information on pricing, suppliers and Medicare coverage & reimbursement

**Customized formularies and peer collaboration** - Share your DME formulary and see formularies from other institutions to improve transition of care
